RELATING TO THE LISTING OF PERSONS TWENTY YEARS OF AGE OR OVER, RESIDENTS OF THE CITY OF BOSTON.

In accordance with the provisions of chapter 279 of the "Acts and Resolves of 1903," the Board of Police this year for the first time prepared lists of "male persons of twenty years of age or upwards who resided in the city of Boston on May 1, 1903." Such lists are used by the Election Commissioners as a basis in preparing the annual voting list, and have been made in former years by the Board of Assess-The Board of Police was instructed by said chapter ors. 279 to prepare these lists during the first seven days of May. It is of advantage that the work should be done in as few days as possible, because the residents are constantly changing their residences from one place to another in the city, and may be listed as residents in more than one place, through the errors of informants, unless the listing is done quickly. Persons also are continually leaving Boston, and it is important that the latter should not be listed at all. While there is not time for the Board of Police to check the lists for duplications and errors before they are printed, these duplications and errors are very likely to be discovered later by persons who may send men to register as voters in the names of persons who no longer live in the place where they listed, and as they are no longer known in the precinct, this can be done with comparative safety. In 1903, when the work was done in seven days, only 207 such duplications were found. It is to be noted that there are now in the city of Boston 194 precincts, so that there were only a few more such duplications than one to each precinct of the city. In 1902, when the work covered forty days, 918 such duplications were found.

During the seven days the following number of policemen were employed in this work: Friday, May 1, 1,054; Saturday, May 2, 1,045; Monday, May 4, 996; Tuesday, May 5, 1,007; Wednesday, May 6, 705; Thursday, May 7, 430; Friday, May 8, 140. As each station completed the work, the officers on the work decreased in number.

The police officer was provided with printed cards upon which blank spaces were left for the ward, precinct, street and number, name, occupation, age, reported residence May 1, 1902, of the resident, and for the officer's number, name of informant and informant's street and number. One card was prepared in advance with the name of the street and the number of the house for every house in the eity. The police officer was instructed to visit each house, and by inquiry of some reliable person inform himself of the facts necessary to enable him to fill in a card for each male person residing therein who was over twenty years of age.

Day officers were detailed to this work on their various routes, and all the night officers in a station, after their night work was done, were detailed during the day in one particular precinct, in order that a precinct might be completed as soon as possible. (Note that more police officers were on duty and that the city was therefore better protected during the day and up to ten o'clock at night than it generally is. During the remainder of the night the usual protection was given.) When the cards for a precinct were completed they were sent at once to Police Station 16, where, in the drill hall, clerks, varying in number from 100 to 225, worked during the day and part of the night in copying the contents of the eards on to the lists, making two lists at one time with carbon paper, one for the Election Commissioners and one for the printer, to whom they were sent on May 11.

Each officer was provided with an epitome of the law of domicile in his pamphlet of instructions, and it was found that few names were erroneously left off or placed on the lists by reason of ignorance of the law by police officers. Where difficulties could be anticipated, however, as in hotels and large lodging-houses, lieutenants and sergeants were detailed to obtain the information concerning the residents therein.

No serious difficulty, except that of delay, was experienced in obtaining accurate information through interpreters, though interpreters had to be used in many instances; and it was found more difficult, for this and other reasons, to accomplish the work in some divisions than in others. The majority of the police stations finished the work in five days: but all seven days were necessary in some instances.

[Jan.

Section 1 of chapter 279 further provides that the Board of Police "shall also inquire, at the residences of the women voters whose names are contained in the list transmitted to them by the Election Commissioners under section 8 of this act, whether such women voters are resident thereat, and shall thereupon make true lists of the women voters found by them." A card of a different color, but otherwise similar to that used in noting facts concerning a male resident, was used to obtain this information concerning women voters, and such lists were made and supplied to the Election Commissioners.

Provision was made in said chapter 279 for adding to the lists of male residents by supplementary lists. There were 3,412 applications made to be added to the lists. These omissions were occasioned in different ways. As above stated, a card was written before the 1st of May for every house in the city. Owing to the short time that the Board of Police had for preparing a complete list of houses, cards for a number of houses were omitted (such as new houses, " etc.). Officers were instructed to visit each house, whether a eard had been prepared or not; but in some cases houses for which no cards were provided were not visited, by error of the officers. Many applications to be placed on the supplementary lists were made by persons living in such omitted houses. A more complete list of houses will be made before May 1, 1904. Residents were omitted who were temporarily. absent from the city on May 1, and whose names were not given to the police by the occupants of the house where they resided, from ignorance of the law. Many residents of Boston leave the eity and close their homes before May 1. Provision is made in the pamphlet of instructions that an officer who finds a house closed, if he cannot get of the neighbors reliable information, shall ascertain the business address of the occupant, where accurate information may be obtained; but the information so obtained may come after the seven days have expired, and so cannot be made use of. Soldiers and sailors, commercial and other travellers, who were absent on May 1, also properly applied during the summer to be placed on the supplementary lists. It is to be anticipated, therefore, that many such applications will

be made every year in the future, as they have been in the past.

The preparation of these lists has been of benefit to the police force. It is the duty of a police officer to familiarize himself with the names and faces of persons who reside on his route, in order that, among other reasons, he may be able to prevent illegal voting at caucuses and elections. The officers' privilege and duty, under the new law, to inquire at each house the names of the male persons living therein, has greatly aided them to know the men who live on their routes. Printed copies of the lists of residents are furnished to all officers, to aid them in this work. These facts are well known among violators of the election law, and act as a deterrent.

It is to be noted, in connection with this subject of the listing of residents, that police officers are trained by their professional duties to suspect and detect attempted violations of the law. Attempts to violate the laws relating to the listing of the residents, either by false information on May 1, or by making a false application to be put on the supplementary list, should be, and we think often are, instinctively suspected and prevented by police officers : and it is certain that malefactors are deterred from making such attempts by the knowledge that such applications have to be made and information given to a police officer in the presence of a number of police officers.

It would seem that certain portions of said ehapter 279 are not consistent. Section 4, which provides for the making of applications to be put on the supplementary list, says, in the third paragraph: "If the board of police are satisfied that such statements are true, they shall give such applicant a certificate that he was a resident of said city on said first day of May." Section 7 says: "The board of police shall forthwith, after any such applicant has been given a certificate, make investigation as to whether such applicant actually resided at the time named in the statement presented by him in the building named therein." The Board of Police had to decide whether, in accordance with section 4, they should satisfy themselves by examination that the statements male by the applicant were true

Jan.

. 4

 \succ_1

before they gave the certificate to that effect, or whether they should certify (as perhaps suggested by section 7) to the truth of the statement before they had made examination into the facts. In this connection it is to be noted that the examination of the applications was not merely formal. The law of domicile is difficult to understand, and is not understood by most persons. Honest applications were made by persons who believed that they were entitled to be listed, but who were not. There were 52 applications refused after examination; 9 cases were prosecuted; 6 persons were convicted under the provisions of chapter 279, which provides a punishment for persons making false applications. The following sentences were imposed: 1, to six months' imprisonment; 2, to three months; 1, to sixty days; and 2, to thirty days.

It was some inconvenience to the would-be voter to have to make two trips to be registered as a voter; first to make his application to the Board of Police, and again to the Election Commissioners with his certificate of residence to be registered as a voter: but the inconvenience is not so serious a matter as it would at first seem to be. After an application had been examined and approved by the Board of Police, the certificate that the applicant resided where he said he did was sent by police officers to the residence of the applicant; and as after Oct. 3, 1903, the Election Commissioners opened offices for the registration of voters in the various outlying parts of Boston, it was obviously not necessary for the applicant who resided at some distance from the centre of the city to make a second trip to the Election Commissioners' office in Court Square, but he could take his certificate to the place near his home where provision was made for the registration of voters. They could then register as voters in time to vote at the State election, but not at the first primaries. A large proportion of the applicants (1,493) lived within a short distance of Court Square.

The following plan, as a remedy for the inconvenience referred to above, was suggested to the city committees of both parties, and worked satisfactorily to the limited extent to which the persons interested chose to use it. The city committees were invited to give to the police a list of the persons found to have been omitted from the list of residents, and an examination was made at once at the residence of those people. Copies of the names and residences of such persons as were found to be residents were given to all officers detailed to receive applications to be placed on the supplementary list, and such persons were given certificates at once on application. A very large proportion of such omissions are discovered by the two political parties; and if the ward committees understand and adopt the above suggested plan, applicants to be placed on the supplementary list would be given their certificates on application, and could then take them at once to the Election Commissioners' office.

The Board of Police made examination into the truth of the statements made in applications before they gave the certificates of residence, and the Board recommends that the phraseology of chapter 279 be adapted to this policy. The third paragraph of section 4 of chapter 279 should be amended also. It reads at present as follows : "But no person shall be listed or be given such certificate later than the first day of September." During part of the last day of August and on the first day of September in 1903 there was therefore no time to examine into the truth of the statements in applieations. The Board therefore gave certificates on those days at the time applications were made, and made the examination afterward, with the result that twelve certificates were cancelled after it proved that the statements made in the applications were false. The Board recommends that the third paragraph of section 4 be amended by striking out the last two lines thereof and inserting in their place the following : " But no such application shall be received later than the first day of September, and no such certificate shall be given later than the tenth day of September." In this way the work of listing will end September 1, and the Board will be enabled to examine into the truth or falsity of the applications before giving certificates therefor.

The Board of Police decided that applications to be placed on the supplementary list of residents would be received only at headquarters in Pemberton Square. There is much

[Jan.]

۶.

3

detail in connection with the filing of such applications and the making oath thereto, such as the transcription into the book provided for by the statute, the correction and checking of errors in the printed lists, and the daily reference to the original cards filed at headquarters, besides the legal questions which arose. The work would have been difficult to accomplish satisfactorily except at headquarters under one direction.

It was suggested that it would be more convenient for the applicants to file and take oath to their applications at the police stations nearest their homes, and that a proportion of applicants, from modesty or timidity, might be prevented from applying by the fact that at headquarters in Pemberton Square criminals might be seen and police officers would be present. But if applications had been made at police station houses applicants would have been subjected to the same conditions, perhaps more intensified, inasmuch as more criminals are brought to station houses than to headquarters, and at least the same number of officials would be present at the stations as at headquarters. The majority of the applicants were protected from such annovances by providing for the filing of applications in a room in the clerical portion of the offices in Pemberton Square not used for criminal business.

Section 2 of chapter 279 provides that the Board of Police "shall, on or before the twelfth day of May of each year," transmit to the Election Commissioners the lists made as provided in the preceding section. By "lists" are meant the lists as copied by the clerks from the original cards. While it is possible for such lists to be copied before the 12th of May, as was done this year, the cost of copying is very much increased by the fact that a large proportion of the work has to be done at night at a higher rate per hour. The Board of Police recommineds that the law be so altered that the lists may be transmitted to the Election Commissioners before the 18th of May, instead of the 12th.

Section 2 of chapter 279 provides that the Board of Police "shall, on or before the fifteenth day of June of each year," prepare certain lists, as above provided for, "printed in pamphlet form," etc. While it is possible to print such

lists before the fifteenth day of June, as was done this year, it is, for the same reasons given above, expensive to accomplish the work in the short time given. The Board of Police therefore recommends that the law be so altered that the lists may be printed before the first day of July, instead of before the fifteenth day of June.

The Boarl of Police recommends that provision be made for the punishment of one who aids or abets a person in making a false affidavit, taking a false oath or filing a false certificate relating to the qualifications of any person in Boston for being listed or given a certificate by the Board of Police.

The Board of Police recommends that chapter 279, sections 2 and 0, be so amended that it shall not require the Board of Police to give to the Election Commissioners nor to print in the lists published in pamphlet form the names and residences of the persons who give the information relating to male persons and women voters residing in the city of Boston. As the original cards containing such facts are kept on file in the office of the Board of Police, the copying and printing of such matter would seem to be unnecessary and expensive.

AN ACT RELATIVE TO THE LISTING AND REGISTRATION OF VOTERS IN THE CITY OF BOSTON.

Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:

SECTION 1. Whoever in Boston aids or abets a person in knowingly or wilfally making a false atfidavit, taking a false oath or signing a false certificate, relative to the qualifications of any person for being listed as a resident thereof or given a certificate of such residence by the board of police, shall be punished by imprisonment for not more than one year.

.

SECTION 2. Section one of chapter two hundred and seventynine of the acts of the year nineteen hundred and three is hereby amended by striking out the whole of said section, and inserting in place thereof the following: — Section I. In Boston the board of police shall, within the first seven week days of May in each year, by themselves or their officers, visit every building in said city, and after Cligent inquiry make true lists, arranged by streets, wards and voting precincts, and containing, as nearly as they can ascertain, the name, age, occupation and residence on

the first day of May in the current year, and the residence on the first day of May in the preceding year, of every male person, twenty years of age or upwards, residing in said city. They shall designate in such lists all buildings used as residences by such male persons, in their order on the street where they are located, by giving the number or other definite description of each such building so that it can be readily identified, and shall place opposite the number or other description of each such building the name, age and occupation of every such male person residing therein on the first day of May in the current year, and his residence on the first day of May in the preceding year. They shall also inquire at the residences of the women voters whose names are contained in the list transmitted to them by the election commissioners under section eight of this act whether such women voters are resident thereat, and shall thereupon make true lists of the women voters found by them.

They shall place in such lists, opposite the name of each such male person or woman voter, the name of the inmate, owner or occupant of the building, or the name and residence of any other person, who gives the information relating to such male person or woman voter. Where such information is given by one person relating to more than one such male person or woman voter residing in one building, ditto marks may be used in such lists under the name of the person giving the information, after his name has been once placed opposite the name of such male person or woman voter first written down as residing in such building.

The board of police shall, upon the personal application of a person listed either upon the original or supplementary lists for the correction of any error in their lists, or whenever informed of any such error, make due investigation, and upon proof thereof correct the same on their original or supplementary lists, and shall immediately notify the election commissioners of such correction, who shall correct their copies of said lists accordingly and proceed to revise and correct the registers under the provisions of section fifty-one of chapter eleven of the Revised Laws. The board of police shall cause all applications and affidavits received by them under this section to be preserved for two years.

SECTION 3. Section two of chapter two hundred and seventynine of the acts of the year nineteen hundred and three is hereby amended by striking out the whole of said section, and inserting in place thereof the following: — Section 2. The board of police shall, on or before the eighteenth day of May in each year, transmit to the election commissioners certified copies of those parts of the lists prepared as provided in section one, containing the name, age, occupation and residence on the first day of May in the current year, and the residence on the first day of May in the preceding year, of every male person, twenty years of age or upwards. residing in said city, and shall promptly transmit to the election commissioners notice of every addition to and correction in the lists made by them. The board of police shall furnish all information in their possession necessary to aid the election commissioners in the performance of their duties.

SECTION 4. Section three of chapter two hundred and seventynine of the acts of the year nineteen hundred and three is hereby amended by striking ont the whole of said section, and inserting in place thereof the following: — Section 3. The board of police shall, on or before the first day of July in each year, prepare printed copies of the lists prepared for the use of the election commissioners. They shall print such lists in pamphlet form by precincts, deliver to the election commissioners as many copies thereof as they may require, and hold the remaining copies for public distribution.

SECTION 5. Section four of chapter two hundred and seventynine of the acts of the year nineteen hundred and three is hereby amended by striking out the whole of said section, and inserting in place thereof the following: — Section 4. If a male person, twenty years of age or upwards, resident in Boston on the first day of May, was not listed by the board of police, he shall, in order to establish his right to be listed, appear before a member of the board of police, the superintendent, a deputy superintendent or an inspector of police, who are hereby anthorized to administer oaths for this purpose, and present under oath a statement in writing that he was on said day a resident of said city, giving his name. age, occupation and residence on the first day of May in the current year, and his residence on the first day of May in the preceding year.

A male person, twenty years of age or upwards, who becomes a resident of said city after the first day of May, and desires to be listed, shall appear before a member of the board of police, the superintendent, a deputy superintendent or an inspector of police, who are hereby authorized to administer oaths for this purpose, and present under oath a statement in writing that he became a resident of said city at least six months immediately preceding the election at which he claims the right to vote, giving his name, age, occupation and residence on the above date, and his residence on the first day of May in the preceding year.

If the board of police, after investigation, are satisfied that such statements are true, they shall give such applicant a certificate 24

that he was a resident of said city on said first day of May, or a certificate that he became a resident at least six months immediately preceding such election, as the case may be, which certificate shall state his name, age, occupation and residence on the first day of May in the current year or on the above date, as the case may be, and his residence on the first day of May in the preceding year; but no such application shall be received later than the first day of September, and no such person shall be listed or he given such certificate later than the tenth day of September.

In every place where oaths are administered as required by this act the hoard of police shall post in a conspicuous place a copy of section three hundred and eighty-nine of chapter eleven of the Revised Laws, as amended by this act, printed on white paper with black ink, in type not less than one quarter of an inch wide.

SECTION 6. Section five of chapter two hundred and seventynine of the acts of the year nineteen hundred and three is hereby amended by striking out the whole of said section, and inserting in place thereof the following : - Section 5. The board of police shall enter the date of application, the name, age, occupation and residence on the first day of May in the current year and the residence on the first day of May in the preceding year, of each such applicant, as above provided, together with the result of their investigation of his application, in a book provided for that purpose, which shall be open for public inspection. They shall cause to be printed, in some newspaper published in Boston, the name and residence of each such applicant. The names and residences of such applicants shall be printed by wards and precincts within two days after the number of names of such applicants, not printed, reaches fifty; and on the day when such number is reached, the names to be printed within such two days shall include the names of all such applicants up to the close of business for this purpose in the office of the board of police on such day.

SECTION 7. Section seven of chapter two hundred and seventynine of the acts of the year nineteen hundred and three is hereby repealed.

SECTION 8. This act shall take effect upon its passage.

LEGAL SERVICE.

Mr. Joseph Warren, who served as counsel to the Board of Police since May 1, 1902, resigned on June 1 last.

Mr. Horace G. Allen appeared for the prosecution in 6 cases of violation of the election and registration laws, and Mr. William H. Vincent in 3 such cases. Conviction followed prosecution in 6 of these cases, 1 was discontinued for want of evidence, and 2 were discharged by the court.

On Dec. 1, 1903, Mr. E. B. Adams was appointed counsel for the Board of Police.

PUBLIC PARKS.

To police the parks during the past year it took a permanent force of 36 men, consisting of 1 lieutenant, 2 sergeants, 32 patrolmen, 1 reserve man, 8 men mounted on bicycles and 13 on horses. To aid this force, details were made on Sundays, holidays and special occasions, aggregating 1,121 men, and consisting of 3 lieutenants, 30 sergeants, 1,029 patrolmen and 59 reserve men.

The arrests in the parks amounted to 266, 230 being men and 36 women.

PUBLIC LODGING-HOUSES.

Every building in the city of Boston, not licensed as an inn, in which ten or more persons are lodged for twentyfive cents or less each per night, is a public lodging-house, under chapter 414 of the Acts of 1894; and the Board of Police is authorized to grant licenses to such lodging-houses after the inspector of buildings has certified that the building is provided with proper exits and appliances for giving alarm to the inmates in case of fire, and the Board of Health has certified that the sanitary condition is satisfactory. Under this law 22 applications for licenses were received, 18 were granted, 2 rejected, 1 withdrawn and 1 is pending.

The following shows the nature of the complaints upon which licenses were forfeited by the Board of Police from Dec. 1, 1902, to Nov. 30, 1903 : --

PERMITS TO DELIVER LIQUOR.

Holders of fourth and fifth class licenses are required to obtain permits for such of their employees as are engaged in delivering intoxicating liquor from teams. These permits, have to be shown to police officers, on demand, and are revoked in case the holder is found delivering liquor illegally, or under suspicious circumstances. During the past year 256 such permits were granted and 95 cancelled or revoked.

MISCELLANEOUS LICENSES.

The total number of licenses issued of all kinds, except for the sale of intoxicating liquor, was 26,324: transferred, 145: cancelled and revoked, 3,210. The officers investigated 389 complaints arising under these licenses, and 2 hearings were given by the Board on these complaints. The fees collected and paid into the city treasury amounted to \$47,071.15. (See Table XV.)

VEHICLE SERVICE.

Automobile.

This year for the first time an automobile was used by the police department, $\Lambda \cong \text{Stanley}^{\pm}$ steam automobile was selected, because it was durable and light and made little

muse. It was used during the daytime in that part of the city known as the Back Bay district, where the most expensive residences of the city are located, very nearly all of which are left vacant during the summer. Thieves, in former years, have worked in this district in the daytime and not during the night time. Several years ago many of these houses were entered during the summer while they were unoccupied, and therefore unprotected by occupants. During the past two years the police force in the Back Bay has been increased during the summer to give the required protection. During the past summer the experiment was made of not adding to the force, but making the automobile give the same protection as the addition of four mounted men and three officers. Two broken back doors have been found during the summer, but nothing has been stolen in the district covered by the automobile.

Since July 1 the automobile has run through the roads and back alleys of the Back Bay district 7,0371/8 miles, guided by a chauffeur. An officer in uniform has ridden in the automobile on a seat high enough to allow him to look over the back fences. It has run every day, good weather and bad weather, between three and four hours in the morning and between three and four hours in the afternoon. It has never, except in cases of necessity, run more rapidly than six miles per hour. It has been prevented from running nine days by accidents to its machinery and running gear. There have been \$320.05 expended on repairs, mainly on new tires. The roads over which it has run have no grades, and are in good condition. With the aid of an odometer it has been easy for the crutain to known what work it has done during the day.

Few arrests have been made by the officer on the automobile, but the presence of the automobile with the officer has discouraged loafers and disreputable people from frequenting the Back Bay district. It has not been used to overtake other automobiles, or runaway horses or escaping felons, nor was it intended that it should be thus used, though in the future automobiles may be found of use for these and other purposes.

Bureau of Criminal Investigation.

The "Rogues' Gallery " now contains 17,829 photographs, 12,829 of which are photographs with Bertillon measurements, a system used by this department during the past five years. In accordance with an act passed by the Legislature March 25, 1899 (chapter 203, sections 1 and 2), we are allowed photographs, with Bertillon measurements, of all convicts now in the several prisons in this State, and of those who have been confined there and who are measured under that system and photographs taken, - a number of which have already been added to our Bertillon cabinet. This, together with the adoption of the system by this department in 1898, is and will continue to be of great assistance in the identification of criminals. A large number of important identifications have thus been made during the year, for this and other police departments, through which the sentences in many instances have been materially increased. The records of 1,461 criminals have been added to the records kept in this Bureau, which now contain a total of 26,131. This Bureau has issued 385 prison reports of discharged convicts, containing the full records, description, distinguishing marks, etc., of 144 convicts who were discharged during the year, and whose records were considered of sufficient importance to preserve. Other police departments were furnished with 143 copies of these reports. The number of cases reported to this office which have been investigated during the year are 11,050, -4,229 of which are recorded on the assignment books kept for this purpose, and reports made on these cases are filed away for future reference. Letters and telegrams, to the number of about 2,000 yearly, are now filed with the numbered reports to which they refer, so that all the papers pertaining to a case can be found in the same envelope, thus simplifying the matters when information is desired on any case. The system of indexing, adopted by this Bureau for the use of the department, now contains a list of records, histories, photo-

graphs, dates of arrests, etc., of about 75,000 people; there a.e also "histories and press clippings," now numbering 5,440, kept by this Purean, in envelope form, for police reference.

The statistics of the work of this branch of the service are included in the statements of the general work of the department; but as the duties are of a special character, the following statement will be of interest: —

The total number of vessels that arrived in this port during the year is 10,239. Of this number, 8,567 came from domestic por's, 817 from ports in the British Provinces and 855 from foreign ports. Of the latter, 779 were steamships, 5 ships, 38 barks, 2 brigs and 31 schooners.

Police Signal Service.

In compliance with chapter 454 of the Acts of 1894 and chapter 249 of the Acts of 1898, 10,014 feet of underground cable has been laid on Division 9, 21,579 feet on Division 6, and 4,800 feet on Division 12.

On account of changes in division boundaries of Divisions 4 and 16, one new signal box was placed on Division 16, for which 1,585 feet of underground eable was laid, making 451 signal boxes in service.

There are in use in the signal service 26 horses, 18 patrol wagons and 12 pungs.

During the year the wagons made 29,099 runs, covering an aggregate distance of 25,442 miles. There were 24,905 prisoners conveyed to the station houses; 1,147 runs were made to take injured and insane persons to station houses, the hospitals or their homes; and 535 runs were made to take lost children to station houses. There were 654 runs to fires and 51 runs for liquor seizures. During the year there were 451 signal boxes in use, arranged on 60 circuits; 834,537 telephone messages and 3,357,500 " on-duty " calls were sent over the lines.

PENSIONS AND BENEFITS.

Dec. 1, 1902, there were 161 pensioners on the roll. During the year 20 died, viz., 1 inspector, 2 lieutenants, 1 assistant keeper, 15 patrolmen and the widow of Sergeant Stevenson; and 43 were added, viz., 1 deputy superintendent, 7 captains, 1 inspector, 1 sergeant, 31 patrolmen, and the widows of patrolmen Flynn and Trainer: leaving 184 on the roll at date, including the widows of 7 and the orphans of 1 policeman, who died from injuries received in the service.

The payments on account of pensions during the past year amounted to \$112,450.01, and it is estimated that \$124,735 will be required for the purpose in 19504. This does not include pensions for 1 captain, 1 sergeant, 1 assistant keeper and 9 patrolmen, all of whom are sixty-five years or over, and are entitled to be pensioned on account of age and term of service.

The invested fund of the police charitable fund on the 30th of November last amounted to 207,550. There are 67 beneficiaries at the present time, and there has been paid to them the sum of 8,519.50 during the past year.

The invested fund of the Police Relief Association on the 30th of November was 71,776.89. The payments for the vear amounted to 21,778.50.

FINANCIAL.

A requisition was made on the city conneil for the sum of \$1.598,756.92 to meet the running expenses of the department, including the pensioned police officers, house of detention, station house matrons, liquor license expenses and police signal system for the financial year.

The total expenditures for police purposes during the past year, including the pensions, house of detention, station house matrons, liquor license expenses and listing persons twenty years of age or more, but exclusive of the maintenance of the police signal system, were \$1,801,629.42.

The total revenue paid into the city treasury from fees for licenses over which the police have supervision was \$1,487,309.10, of which \$1,440,237.95 was received for liquor licenses. (See Table XVII.)

The cost of maintaining the police signal system during the year was \$60,929.99. (See Table XVIII.)

CONCLUSION.

The Board of Police call attention to the increase in arrests for various offences; they attribute such increase to additional vigilance on the part of the patrolmen, and commend the work performed by the officers during the past year.

Respectfully submitted,

W. H. H. EMMONS, C. P. CURTIS, JR., H. F. ADAMS, Board of Police.
